| Cornell Notes | Topic/Objective: History of Atomic Theory | | Name: | | |
|---------------------------|---|-------------------------|-------------------------|--|--|
| | | | Class/Period: Chemistry | | |
| Decades of College Dreams | | | Date: | | |
| Essential Question | Essential Question: How has the atomic model changed over time? | | | | |
| | | | | | |
| Questions: | | Notes: | | | |
| What is an atom? | | Atom: | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| What were atoms | | Democritus: | | | |
| first believed | | | | | |
| and how has | it | | | | |
| changed? | | | | | |
| | | lahu Naltau | | | |
| | | John Dalton: | | | |
| | | | | | |
| | | | | | |
| | | Palton's Atomic Theory: | | | |
| | | 1. | | | |
| | | | | | |
| | | | | | |
| | | 2. | | | |
| | | | | | |
| | | | | | |
| | | 3. | | | |
| | | | | | |
| | | | | | |
| | | 4. | | | |
| | | | | | |
| | | | | | |

| Discovery of the J.J. Thomson: subatomic particles | | | |
