

Cornell Notes 	Topic/Objective: <b>Ions</b>	Name:
		Class/Period: <b>Chemistry</b>
		Date:

Essential Question: **Why do atoms become charged?**

Questions:	Notes:
<b>What is an ion?</b>	<b>Ion:</b>
	<b>Cation:</b>
	<b>Anion:</b>
<b>How do you determine the charge on an atom?</b>	<b>Step 1:</b>
	<b>Step 2:</b>
<b>Why do atoms become charged?</b>	<b>Valance Electrons:</b>
	<b>Number of electrons in a stable atom is: _____</b>
	<b>Generally:</b>
	<b>Metals _____ valance electrons</b>
	<b>Nonmetals _____ valance electrons</b>

Summary:
